Come enjoy our wide variety of Water Sports offered on our updated Pool Schedule. Come play hockey as you've never seen it before; underwater! Play in a team game or take on a friend in stick-handling drills or a shootout format. Experience basketball in a game that emphasis quick passing, good positioning and using your swimming ability to get to an open spot on the court. Water volleyball has all the amenities and thrills of land volleyball with the added challenge of moving through the resistance of the water. Easy enough for people just learning to play while still providing a challenge for experienced players. Free for all high school students for the months of January and February.
