

## APPENDIX "A"

### AREA OF WORK:

The area encompassed by this tender is 1.9 Hectares and is located at the Fort Smith Landfill. An area map can be found in Appendix "C" attached to this document.

The exact area of work will be confirmed by a site visit with a Town of Fort Smith representative before work begins. If clarification is required before submission, contact Adam McNab at 867-621-0486.

### SCOPE OF WORK:

This project is meant to reduce wildfire hazards through fuel reduction. Specifically, this project aims to thin the forest with priority to removing coniferous (needle bearing) trees.

- **Branch Tip Measurement:** Ensure there is a minimum of **3 metres of horizontal space** between the outermost branches of neighbouring coniferous trees.
- **Species Selection:** Prioritize the removal of highly flammable conifers and retain less flammable, fire-resistant deciduous trees such as aspen, poplar, and birch.
- **Ladder Fuels:** Remove smaller, younger evergreen trees that can act as a "ladder," allowing fire to move from the ground into the treetops.

### General Notes:

- Complete all work within the term of the contract and produce an invoice for payment after a satisfactory site visit.
- Ensure progress meets or exceeds 50% completion of the scope of work at the midpoint of the contract term. If not satisfactory the contract may be cancelled and awarded to another entity to ensure on-time completion.
- Ensure stump height is no greater than 12 inches from the average grade.
- Remove to the Fort Smith Landfill all debris, garbage, refuse, abandoned vehicles, or litter that is exposed or found within the area identified.
- Remove all useable timber with a butt size greater than 12 inches to a designated area on site.
- Mulch, chip, or burn all non-marketable wood on site.
- Allow for access and processing of decked logs if identified.
- Carry out all burning by the Fire Prevention Bylaw 1024 including securing the appropriate burn permits.
- Spread out all ash piles left over from burning activities while ensuring they are fully extinguished.
- Repair or regrade any public infrastructure or drainage features that have been disturbed by this work as applicable.

**APPENDIX "B"**

**INSTRUCTIONS TO BIDDER**

If you are not able to exactly comply with any of these items and wish to submit an alternate you must determine if any alternate is acceptable to the Town. You must fax or email the Protective Services Supervisor, Town of Fort Smith (1-867-872-8401, [protectiveservices@fortsmith.ca](mailto:protectiveservices@fortsmith.ca)) a detailed letter of explanation of your proposed alternate. The acceptability of any alternate proposal will be entirely at the discretion of the Town of Fort Smith and shall be final and binding.

All costs associated with the scope are to be included in the quote.

The quote will include all pre-delivery inspection and servicing.

The contractor is responsible for completing this project within the allocated time and invoicing for the work in a timely fashion. Site inspections will be carried out frequently to ensure work is being carried out per this tender document and all applicable municipal, territorial, and federal bylaws, laws, regulations, acts, and other legal instruments. It is the contractor's responsibility to work in a safe, sustainable, and legal manner.

Proof that your company is registered and in good standing with WSCC, holds liability insurance, and has a valid Fort Smith business license which will be required prior to being awarded this tender.
