

How to Find Books in Our Online Catalogue

Go to <https://nwte.sirsidynix.net>

Searching for specific titles or authors

If you know the title, author, or subject of the book you are looking for, enter that information in the search bar, then change "words or phrase" to title, author or subject in the drop down menu. Choose Mary Kaeser Library from the "library" menu to get just results from our library or leave it on ALL if you want to search and request from other libraries as well.

The screenshot shows the top navigation bar for NWT Public Library Services. Below the navigation bar is the "Quick Search" section. It features a search input field, a dropdown menu set to "words or phrase", and a "Search" button. Below the search bar is a "library:" dropdown menu currently set to "Mary Kaeser Library - Fort Smith". A "Power Search" link is visible below the library dropdown.

Browsing list of holdings

If you want to browse our entire collection of books, you have to do a Power Search.

This screenshot is identical to the one above, but the "library:" dropdown menu is set to "ALL". The "Power Search" link is highlighted in yellow.

Once you are in the Power Search screen, choose Mary Kaeser Library from the "library" menu, and Book from the "type" menu. Click the search button, and you will get a list of all the books in the library. To refine your search, choose a collection from the "location" menu. We don't use all the possible locations available in the menu. See below for a list of locations we do use.

Generally, the first pages will have the newer items, and the higher numbered pages will be older titles.
